Advanced Web Mail

Using the Advanced Web Mail system you are able to access your email from your domain anywhere you have an internet connection.

Your mailbox has a generous 250MB Limit which allows you to keep all your Contacts, Calendar, Tasks and Note items.

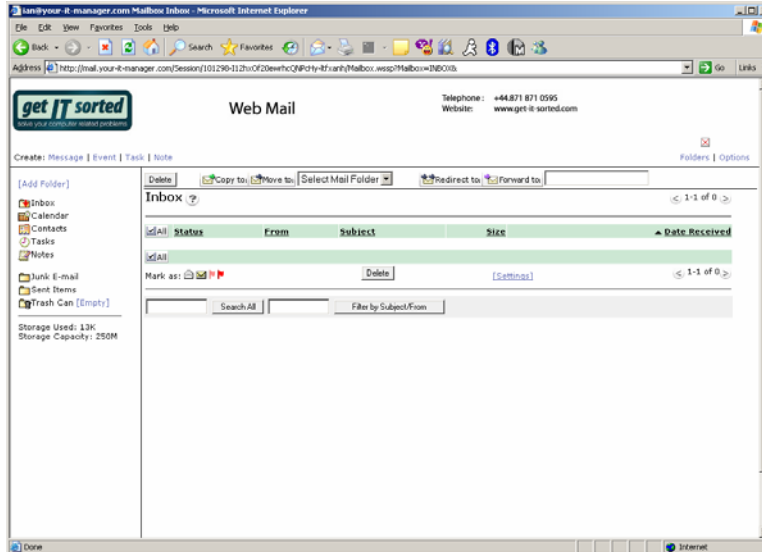

Both Internet Explorer and Fire fox are both supported.

Advanced Settings

You can also use the settings options to set an auto reply so that when you are out of the office or away on holiday please will know you are not reading your email.

Remote Pop allows you to gather email from other POP mailboxes and have the email in your Advance Web Mail mailbox so that you only have to monitor the one mailbox.
